

The Safeway Hwy 115 Loop 1 starts the from the Safeway Shopping Center at CO Highway 115 and South Academy Blvd. This ride is long 66 mile loop with shorter options as explained in the cue sheet. The ride is long but not that difficult with less than 1700 feet of vertical gain. The route is very rural so stop at the recommended stops to replenish liquids and food. There is a park on the left just north of Hanover but there was no water there the last time we did this route. You may be able to obtain water at the church in Hanover. The route return is through Fort Carson via Gate 20 and 3. A government issued photo id is required to enter Fort Carson. The club has used this route on the Saturday Fitness Ride.
