

The Safeway Hwy 115 - Security/Widefield Loop is a variation on the Saturday Fitness Ride loops from the Safeway at Hwy 115 and South Academy. This loop spends a bit more time riding through the towns of Security and Widefield than the other loops. It also offers shorter and longer ride options which are detailed in the cue sheet. There are two rest stop options on the route. This is fun rather fast loop that mixes up town and rural riding. By adding the out and back to the PPIR turn around point the ride is 48 miles with a little over 1100 feet of vertical elevation gain.
